PROFILE

Computer Science and Engineering student with hands-on experience in Python-based web development, recommendation systems, data analytics, and machine learning. Interested in building practical software solutions and applying strong programming and problem-solving foundations in professional engineering environments.

TECHNICAL SKILLS

Programming

Python, Java, C, C++, SQL

Web & Backend

HTML, CSS, Flask, Spring / Spring Boot

AI & Data

Machine Learning, Data Analytics, Recommendation Systems, Generative AI

Libraries & Tools

Pandas, Scikit-learn, XGBoost, SHAP, Git, GitHub, VS Code, Spring Tool Suite

Database

MySQL, Relational Database Concepts

CERTIFICATIONS & TRAINING

- Artificial Intelligence Fundamentals — IBM SkillsBuild
- Python Industrial Training Certificate

COURSEWORK

- Object-Oriented Programming
- Data Structures & Algorithms
- DBMS
- Machine Learning
- Data Analytics
- Web Development
- Numerical Computation
- Computer Networks
- Multimedia Systems

AREAS OF INTEREST

- Artificial Intelligence
- Generative AI
- Backend Software Development
- Data Analytics

EDUCATION

B.Tech in Computer Science & Engineering

Techno Institute of Engineering and Management, Banipur

Roll Number: 24400123018 | Expected Graduation: 2027

Academic Performance (Upto 6 Sem): 6.90

Higher Secondary (Class XII)

Score: 73%

Secondary (Class X)

Score: 85.29%

PROJECTS

Recommendation System for Movies & Music

Tech Stack: Python, Flask, Pandas, Scikit-learn, HTML, CSS

- Developed a web-based recommendation system that suggests movies and music based on user-selected category and mood.
- Built recommendation logic using a dataset containing title, category, mood, and popularity attributes.
- Used Python and Flask for the backend, with Pandas and Scikit-learn for data processing and recommendation functionality.
- Created a simple HTML/CSS interface for selecting preferences and displaying recommendations.

PROFESSIONAL FOCUS

Software Development • Artificial Intelligence & Machine Learning • Data Analytics • Backend Development
